**\*\*\*COMPUTER COMPETENCY**

Certification requires demonstration of computer competency to meet Kentucky Teacher Standard IX. All teacher education students in B-K, P-5, 5-9, 8-12, or P-12 programs must demonstrate computer literacy prior to approval for student teaching and may do so through one of the plans described below.

Plan 1: Pass approved computer literacy exam administered jointly by College of Education and Human Services and College of Business and Public Affairs.

Plan 2: Successful completion, with grade of C or better, of CIT 105 (3 credit hours) or equivalent.

**.Students must earn 42 hours at the 300 or above course level.**

Continuous assessment procedures will be used to document and systematically monitor student progress through the education program in order to determine the degree to which students have internalized and can demonstrate proficiency with the IECE Teacher Standards. The eligibility portfolio will be assessed during the student teaching semester. Check Points are designed to facilitate student progress through the education program, provide students with information for completion of the portfolio at designated stages and serve as a means for making recommendations for improvement or remediation when needed, to be reviewed at the next check point.

Teacher certification requirements are subject to change. Before registering for the test(s), please refer to the Education Professional Standards Board (EPSB) website at [www.kyepsb.net](http://www.kyepsb.net) for current requirements or contact the Division of Internship and Assessment at 502-564-4606 or 888-598-7667.

#### GRADE POINT AVERAGE REQUIREMENTS:

Grade point averages are reviewed during three checkpoints: admission to teacher education (see Requirements for Admission to Teacher Education), admission to student teaching (requires a 2.75 average overall; a 2.75 average in content area; a 2.75 average in professional education) and at the time of completion/graduation (2.75 overall).
