

DEPARTMENT: EDUCATIONAL STUDIES, LEADERSHIP, & COUNSELING

COURSE PREFIX: CNS

COURSE NUMBER: 734

CREDIT HOURS: 3

I. TITLE: Marriage, Couple and Family Counseling

II. COURSE DESCRIPTION AND PREREQUISITES:

A graduate course that provides counselors and other human service workers with an overview of the processes and theories involved with counseling couples and families. The focus of this course is to prepare students to think systemically and to learn about family concepts, dynamics, theories, and techniques. This will be accomplished through assigned readings, seminar discussions, small group work, role plays, lectures, case presentation, audiovisual materials, guest speakers, and student assignments.

Prerequisite(s): None

III. COURSE OBJECTIVES:

Class activities will be centered on the attainment of the course objectives listed below. Following each objective, and enclosed in parentheses, are numbers that reference the Council for Accreditation of Counseling & Related Education Programs (CACREP) Standards addressed by that objective. Upon successful completion of this class, students will be able to

- A. gain a theoretical understanding of family counseling practice and major approaches to family and couple therapy; understand how these have emerged historically; and detect major theoretical and practice differences and apply the theories (Section II: G.1.a., G.5.e.);
- B. understand theories and models of individual, cultural, couple, family, and community resilience (Section II: G.3.d.; Section III CMHC: C8);
- C. understand the professional organizations, credentials and ethics for marriage, couple, and family counseling (Section II: G.1.f., G.1.g.);
- D. engage families and couples; demonstrate skill in obtaining necessary information, conduct systemic assessment of transactional problems of a family and identify contributory environmental factors (Section II: G.5.c.; Section III CMHC: C8, D5);
- E. identify different approaches based on individual, family, and couple problems, needs, developmental stage, and cultural and ethnic backgrounds (Section II: G.3.a., G.5.d. Section III CMHC: C1);
- F. demonstrate understanding and ability in applying concepts of diversity including cultural, ethnic, minority, gender, racial and sexual preference perspectives to family counseling (Section II: G.2.b., G.2.d.; Section III CMHC: D5);
- G. understanding professional ethics and value issues relevant to family counseling (Section II, G.1.j.; Section III CMHC: C9);
- H. utilize a variety of family and couple assessment tools including the family life chronology, eco-map, genogram, and so forth (Section II: G.7.f., G.7.g.; Section III CMHC: G1);
- I. develop an understanding of the developmental phases of family life and how these predict certain stressors and opportunities for change (Section II: G.3.a.); and
- J. develop an awareness of the research and evidence-based practices in marriage and family counseling (Section II: G.8.a., G.8.e.; Section III CMHC: E3, I1; Section III School: I1).

The CAEP/EPBSB theme of diversity will be addressed via students engaging in experiential activities that promote interaction with individuals and populations with whom they would not normally interact. Furthermore, this course promotes reflective decision making as students increase their self-awareness and understanding of how one's biases and judgements can affect the counseling relationship in a couple and/or family counseling environment.

Diversity Statement

The MSU counseling faculty recognize diversity and embrace a cross-cultural approach in support of the worth, dignity, potential, and uniqueness of people within their social and cultural contexts (ACA 2014 Code of Ethics Preamble).

IV. CONTENT OUTLINE:

- A. Introductions; identify family life cycle; discuss course requirements problems/situations; MFT publications & professional organizations
- B. Foundations & leading figures in MFT; evolution of family therapy; early models
- C. Concepts in family therapy; systems theory
- D. Bowenian & transgenerational family therapies; genogram discussion; Adler & birth order theory; psychoanalytic family therapy; case analysis
- E. Structural family therapy; draw family map
- F. Strategic family therapy; role plays; Milan systemic therapies & collaborative models
- G. Experiential family therapy; role plays
- H. Cognitive behavioral family therapy; Solution focused & narrative family therapies
- I. Sexual dysfunction & sex therapy
- J. Emotionally focused therapy; couples therapy; infidelity; marriage enrichment; premarital counseling
- K. Special populations in family therapy; single parent & remarried families
- L. Culturally diverse families
- M. Domestic violence; substance abuse
- N. Outcome research in family therapy
- O. Ethical & professional issues

V. INSTRUCTIONAL ACTIVITIES:

- A. Lecture
- B. Class participation/discussion
- C. Movie clips
- D. Papers/Tests/Quizzes/Canvas Activities
- E. Presentations
- F. Experiential Exercises
- G. Multi-media technology
- H. Role-play
- I. Review of the literature

VI. FIELD, CLINICAL, AND/OR LABORATORY EXPERIENCES:

None

VII. TEXTS AND RESOURCES:

- A. Required Text:
 - Goldenberg, I., & Goldenberg, H. (2013). *Family therapy: An overview* (8th ed.). Belmont, CA: Brooks/Cole.
 - Olson, D. H. (1996). Clinical assessment and treatment interventions using the family circumplex model. In F. W. Kaslow (Ed.), *Handbook of relational diagnosis and dysfunctional family patterns* (pp. 59-80). New York: John Wiley. [NOTE: Olson reading will be made available on Canvas]
- B. Other Required Selections:
 - Instructor assigned readings (e.g., journal articles)
- C. Recommended Text:

Gottman, J. M. (2000). *Seven principles for making marriage work: A practical guide from the foremost relationship expert*. New York: Three Rivers Press.

McGoldrick, M., Gerson, R., & Petri, S. (2008). *Genograms: Assessment and intervention*. (3rd ed.). New York: W.W. Norton and Company.

Napier, A. Y., & Whitaker, C. (1978). *The family crucible: The intense experience of family therapy*. New York: HarperCollins Publishers.

Weeks, G. R., Odell, M., & Methven, S. (2005). *If only I had known...Avoiding common mistakes in couples counseling*. New York: W.W. Norton and Company.

- **Students are expected to read assigned chapters/articles prior to each class**
- **Students are required to have a webcam and microphone for some assignments for this class. Waterfield Library also has laptops with this equipment that can be checked out.**

VIII. EVALUATION AND GRADING PROCEDURES:

A. Course Requirements:

My Family Paper	50 points
Article Reviews and Presentation	40 points
Theory Applications	40 points
Genogram and Clinical Interpretation	150 points
In-class Role Plays (3 @25 points each)	75 points
Exam One	50 points
Exam Two	50 points
Attendance & Participation	100 points

Total **555 points**

B. Grading Scale:

A = 90 – 100%

B = 80 – 89%
C = 70 – 79%
E = Below 70%

NOTE: It is important to note that students who demonstrate personal limitations that might impede future performance, or consciously violate ethical standards and/or are ineffective, will not receive instructor endorsement to continue in clinical courses.

Assignments

- 1) My Family: How it all Started (50 points)** In order to learn how to work with individuals and their families, it is useful to examine the family you know best: your own family, whether adopted or biological. Write a 5 to 7 page paper (APA 6th edition format) about your family. Paper should not be longer than 7 pages (not including abstract, references, and title page). Additional pages beyond 7 will not be read and information in additional pages will not be considered for the final grade. Topics could include, but are not limited to family of origin, where your parents are from, how your parents met, children they had, roles played by family members, occupations, addictions, culture, types of relationships, and any other issues you may find relevant. Additionally, students should reflect on and present how the dynamics in their family affected and influenced their personality/worldview. Identify how you see family, community, and social systems impacting treatment by connecting these issues with your family experiences. Describe your role as a counselor in eliminating bias and prejudice and your role in developing cultural awareness. **Due 1/25/15** (CACREP Standards Section II: G.2.e., G.2.f.; Section III: CMHC C8, E1.)
- 2) Family/Couple Theory Applications (10 points each, 40 points total)** Utilizing de Bono's Six Thinking Hats (see handout via Canvas) you will select and evaluate the key theoretical components of selected theories. Each of these papers will be typed in APA 6th edition and limited to three pages, not including the title page, abstract, and references. Additional pages beyond the three page limit will not be read, and therefore not considered in your graded assignment. Be concise, specific, and use examples from the book. Each theory application is due VIA Canvas by the assigned due date. Students will have a choice with regards to theory selection. The following is a list of theories to be used: Psychodynamic, Object Relations, Adlerian, Transgenerational, Experiential, Gestalt, Human Validation (Satir), Emotionally Focused Couple Therapy, Structural, Strategic, Social Constructivist (your choice), or Narrative. There are four theory papers, each worth 10 points. As you will notice, there are 11 theories listed above. You may choose any four theories to write your paper on. **Due 2/23, 3/9, 4/6, 4/13.** (CACREP Standards Section II: G.5.d., G.5.e.)
- 3) Research Article Reviews & Presentation (40 points)** In order to update the class on current scholarly work and research (i.e. theory to practice, quantitative research, qualitative research, evidenced based practices in couple and family counseling, etc.), each student will complete two article reviews from approved scholarly journals and then present their findings to the class. Topics will be assigned to each student; however, if there is a particular topic of interest this can be negotiated. **Due 4/20/15** (CACREP Standards Section II: G.5.e., G.8.a., G.8.e.; Section III CMHC: C9, E3, I1; Section III School: I1)
Article Reviews
 - APA 6th edition format
 - Cite source as you would in a reference section of an APA paper
 - Directly under the citation include the following
 - The premise of the article

- The important issues or findings that support the thesis of the article
- Flaws or omissions in the content or research
- New information or terms that you took away from the article
- Points that you agree or disagree with in the article
- Potential use of this information for you as a practicing counselor
- How this article is related to a systems perspective
- Related systems interventions/techniques described in article
- Evidence-based treatment issues

Presentation

- Discuss the above information in a 10 to 15 minute report. The presentation will be conducted in class on **4/20 for Murray section and 4/27 for Madisonville section.**
- If a presentation is of interest to you, contact the presenter so that he/she may provide you with a copy of his or her article review.

4) Family/Couple Counseling Role Plays (Three Role Plays 25 points each, 75 points total) Each student will engage in two family/couple counseling role plays in which they practice the role of counselor. These role plays will take place during class time. Depending on class size, there will be two co-counselors, three to four family members, and the remaining members of the class will be a reflecting team. Students will practice counseling from an assigned counseling theory and will demonstrate the use of systems specific techniques. (CACREP Section II: G.5.d., G.5.e.; Section III CMHC: D5). These will take place in class on **2/23; 3/9; & 3/30 for Murray and 3/2; 3/23; & 4/6 for Madisonville**

5) Genogram & Clinical Interpretation (150 points) You are to create your own family genogram. You may choose to keep all names confidential by changing them on your genogram. Begin with your immediate family and go back two more generations. Include family information, as you know it or by "interviewing" family members for information to include, but not limited to: age, occupation, births, deaths, marriages or unions, separations or divorces, major and chronic physical and/or mental illness including addictions, family transitions (moves, job changes/losses) AND (in your paper discuss) how your family systemically responded to stated event(s) and the impact the event(s) had on your family functioning. For this part, keep in mind the work of Olson and the Family Circumplex Model. For example, if a member in your family was having marital troubles and eventually divorced, discuss the impact of the divorce on the family and family relationships. Was the family supportive? Who was and wasn't supportive? Why? Did the family come together in a healthy, cohesive way to support this member? Indicate, on your genogram, and discuss the multicultural issues unique to your family and its functioning. It is not acceptable to say that your family is all Caucasian and you aren't sure how this really impacts your family. Refer to the literature if necessary for further guidance.

The genogram must include a key to define/identify all symbols. Refer to the McGoldrick, Gerson, & Shellenberger text for additional guidance beyond classroom discussion. All genograms and keys must be legible. In addition to the actual genogram, you will also submit a paper describing your observations and awareness gained from this assignment. In addition, you will be referring back to information included on the genogram as requested above (age, occupations, births, deaths,...). Here is where you will discuss the impact such events had on your family and its functioning. All information will be discussed using Bowen's Transgenerational lens. No exceptions. Explore and discuss the significance of the "Five Clues" that can be determined through your genogram:

Revised August 7, 2015

- Significant dates – identify all important dates (e.g., historical, familial, and relationship dates), discuss what information exists about these events, and what this information adds to your understanding of the patterns in your genogram.
- Gender beliefs and values – discuss how these beliefs/values have thread through your genogram (or not) and what impact this may have had on your development.
- Secrets – identify where secrets exist in the make-up of the genogram. If there are no clear secrets, identify where (if anywhere) unknown or unspoken facets of people’s lives exist. Discuss what impact these secrets (or lack thereof) have had on the boundaries and communication patterns in your genogram.
- Losses – discuss how the experience(s) of loss (remember how broad that term can be) has impacted the relationship patterns in your genogram. Explore how these events may have been perceived differently by different individuals.
- Themes – identify the themes that run through your genogram that answer the questions "Who are we?" and "How do we behave?" What do these themes reveal about your family’s belief structure and how have they guided the family in making decisions about their current and future behaviors?

The genogram paper will be submitted in APA 6th edition. Papers will be no longer than 10 pages, not including title page, references, and abstract. Additional pages beyond 10 will not be read and information in additional pages will not be considered for the final grade.

This assignment is one that requires you to look at your family, to include challenges and accomplishments. It is your choice what to include and what not to include. All information will be kept confidential by the instructor unless duty to warn or current abuse of a child or elder is reported. Having said that, it can bring up issues that once might have been dealt with and/or forgotten. Genograms can be emotionally challenging so I would encourage you to take care of yourself, seek help if necessary, and don’t begin this assignment two weeks before its due. Trust me. **Due 4/6/15** (CACREP Standards Section II: G.2.e; Section III CMHC: E1).

- 6) Exams (Two exams at 50 points each, 100 points total)** Two exams will be given, one at midterm and one at the end of the semester. This exam will be taken on Canvas and will include multiple-choice, true-false, and short answer (case study) format. The exam will cover the material (i.e. information from the text, workbooks, lecture, etc.) presented during the semester. **Exam 1 Due 3/2/15. Exam 2 Due 4/27/15** (CACREP Standards Section II: G.2.b., G.3.a., G.3.d., G.5.c., G.5.d., G.5.e.; Section III CMHC: C8).

Attendance & Participation (100 points): Given the interactive nature of this course, attendance is necessary and mandatory in order to develop knowledge and skills to be ethical and effective professional counselors. This course adheres to the attendance policy published in the current MSU *Graduate Bulletin*. CNS 734 is a didactic as well as experiential and skills-based course. Experiential means in-class participation. Participation includes, but not limited to, application of the learned concepts and techniques, observing others, giving and receiving feedback, discussing, role playing, analyzing case studies, and sharing experiences. Attendance is paramount and sessions cannot be substituted by papers or reading. **Given that this course is hybrid in format and that we will only meet five times throughout the semester, you are not permitted to miss class. There is the potential to visit the Murray or Madisonville campus on their day of class to make up for missing; however, you will need to receive permission to do so. Meeting times are subject to change due to weather.**

***Being present in class & doing other activities (e.g., drawing, playing on computer,**

talking) is not considered being actively involved

Additional Notes on Assignments:

- A. For each paper be ready to have a class discussion about the subject matter.
- B. Concerning the assignments, this syllabus is subject to change throughout the course of the semester. Updated versions of the syllabus will be posted on Canvas.
- C. All papers will be written in APA format. If you have questions about formatting, refer to the sample and power point instructions.
- D. All assignments will be posted to Canvas, unless otherwise stated in the syllabus or in class and should be in Microsoft Word unless otherwise specified. When uploaded assignments save in the following format **pender_rebecca_nameofassignment**.
- E. *Policy on late assignments:* If an assignment is late, 1 point will be deducted for each day the assignment is late. If you have difficulty turning in your assignment on time, contact the instructor PRIOR to the due date of the assignment. Otherwise, points will be taken off for the assignment being late. Assignments will not be accepted after one week past due date.

IX. ATTENDANCE POLICY:

Students are expected to adhere to the MSU Attendance Policy outlined in the current *MSU Bulletin*. Additionally, students are expected to be on time for class. Tardiness and/or missed classes can result in a drop in letter grade. Cell phones will need to be off. If you anticipate a situation that requires your immediate attention, put your phone to vibrate.

X. ACADEMIC HONESTY POLICY:

Murray State University takes seriously its moral and educational obligation to maintain high standards of academic honesty and ethical behavior. Instructors are expected to evaluate students' academic achievements accurately, as well as ascertain that work submitted by students is authentic and the result of their own efforts, and consistent with established academic standards. Students are obligated to respect and abide by the basic standards of personal and professional integrity.

Violations of Academic Honesty include:

Cheating - Intentionally using or attempting to use unauthorized information such as books, notes, study aids, or other electronic, online, or digital devices in any academic exercise; as well as unauthorized communication of information by any means to or from others during any academic exercise.

Fabrication and Falsification - Intentional alteration or invention of any information or citation in an academic exercise. Falsification involves changing information whereas fabrication involves inventing or counterfeiting information.

Multiple Submission - The submission of substantial portions of the same academic work, including oral reports, for credit more than once without authorization from the instructor.

Plagiarism - Intentionally or knowingly representing the words, ideas, creative work, or data of someone else as one's own in any academic exercise, without due and proper acknowledgement.

Instructors should outline their expectations that may go beyond the scope of this policy at the beginning of each course and identify such expectations and restrictions in the course syllabus. When an instructor receives evidence, either directly or indirectly, of academic dishonesty, he or she should investigate the instance. The faculty member should then take appropriate disciplinary action.

Disciplinary action may include, but is not limited to the following:

- 1) Requiring the student(s) to repeat the exercise or do additional related exercise(s).
- 2) Lowering the grade or failing the student(s) on the particular exercise(s) involved.
- 3) Lowering the grade or failing the student(s) in the course.

If the disciplinary action results in the awarding of a grade of E in the course, the student(s) may not drop the course.

Faculty reserve the right to invalidate any exercise or other evaluative measures if substantial evidence exists that the integrity of the exercise has been compromised. Faculty also reserve the right to document in the course syllabi further academic honesty policy elements related to the individual disciplines.

A student may appeal the decision of the faculty member with the department chair in writing within five working days. Note: If, at any point in this process, the student alleges that actions have taken place that may be in violation of the Murray State University Non-Discrimination Statement, this process must be suspended and the matter be directed to the Office of Institutional Diversity, Equity and Access. Any appeal will be forwarded to the appropriate university committee as determined by the Provost.

XI. NON-DISCRIMINATION POLICY AND STUDENTS WITH DISABILITIES:

Policy Statement

Murray State University endorses the intent of all federal and state laws created to prohibit discrimination. Murray State University does not discriminate on the basis of race, color, national origin, gender, sexual orientation, religion, age, veteran status, or disability in employment, admissions, or the provision of services and provides, upon request, reasonable accommodation including auxiliary aids and services necessary to afford individuals with disabilities equal access to participate in all programs and activities. For more information, contact the Executive Director of Institutional Diversity, Equity and Access, 103 Wells Hall, (270) 809-3155 (voice), (270) 809-3361 (TDD).

Students with Disabilities

Students requiring special assistance due to a disability should visit the Office of Student Disability Services immediately for assistance with accommodations. For more information, students should contact the Office of Student Disability Services, 423 Wells Hall, Murray, KY 42071. 270-809-2018 (voice) 270-809-5889(TDD).

Course Specifics for CNS 734 (Spring 2015)

CACREP Counseling Program Specifics for CNS 734

Clinical Mental Health Counseling Objectives		Assessment
Foundations A1	Understands a variety of models and theories related to clinical mental health counseling, including the methods, models, and principles of clinical supervision.	Class Discussion/ Lecture/ Readings
Counseling, Prevention, and Intervention C1	Describes the principles of mental health, including prevention, intervention, consultation, education, and advocacy, as well as the operation of programs and networks that promote mental health in a multicultural society.	Class Discussion/ Lecture/ Readings
Counseling, Prevention, and Intervention C8	Recognizes the importance of family, social networks, and community systems in the treatment of mental and emotional disorders.	My Family Paper, Exams, Class Discussion/ Lecture/ Readings
Counseling, Prevention, and Intervention C9	Understands professional issues relevant to the practice of clinical mental health counseling.	Article Reviews and Presentations, Class Discussion/ Lecture/ Readings
Counseling,	Demonstrates the appropriate use of culturally	Family/Couple

Revised August 7, 2015

Prevention, and Intervention D5	responsive individual, couple, family, group, and systems modalities for initiating, maintaining, and terminating counseling.	Counseling Role Plays, Class Discussion/ Lecture/ Readings
Diversity and Advocacy E1	Understands how living in a multicultural society affects clients who are seeking clinical mental health counseling services.	My Family Paper, Genogram, Class Discussion/ Lecture/ Readings
Diversity and Advocacy E3	Understands current literature that outlines theories, approaches, strategies, and techniques shown to be effective when working with specific populations of clients with mental and emotional disorders.	Article Reviews and Presentations, Class Discussion/ Lecture/ Readings
Assessment G1	Knows the principles and models of assessment, case conceptualization, theories of human development, and concepts of normalcy and psychopathology leading to diagnoses and appropriate counseling treatment plans.	Class Discussion/ Lecture/ Readings
Research and Evaluation I1	Understands how to critically evaluate research relevant to the practice of clinical mental health counseling.	Article Reviews and Presentation
School Counseling Objectives		Assessment
Research and Evaluation I1	Understands how to critically evaluate research relevant to the practice of school counseling.	Article Reviews and Presentation
