All teacher education students in P-5, 5-9, 8-12, or P-12 programs must demonstrate computer literacy prior to approval for student teaching and may do so through one of the plans described below:
- Plan 1: Pass approved computer literacy exam administered jointly by the College of Education and the College of Business and Public Affairs.
- Plan 2: Successful completion, with grade of C or better, of CSC 199 (3 credit hours) or equivalent.

Note: Continuous assessment procedures are used to document and systematically monitor student progress through each program in order to determine the degree to which students have internalized and can demonstrate proficiency with the Kentucky Teacher Standards. The eligibility portfolio is formally assessed during the student teaching semester. For additional information and requirements each student should see his/her advisor.
