I. TITLE: Specialty Study

II. COURSE DESCRIPTION AND PREREQUISITE(S): This course is designed to enable the student, with the supervision of his/her graduate faculty committee, to select a problem directly related to the student’s area of concentration, survey the research literature, collect research data and write the research paper. 

Prerequisite(s): none

III. COURSE OBJECTIVES: 
Completion of the Ed.S. Specialty Study. Students will refine their skills in conceptualizing their research ideas, conducting the literature review, collecting and analyzing data, and interpreting and presenting the results of the study. The study will be defended with their Ed.S. study committee. The instructor for this course will work individually with students in guiding them in conceptualizing their subject matter/topic, reviewing the literature, collecting and analyzing data, and finally in conveying the results in writing. Timelines are below:

IV. CONTENT OUTLINE: 
Developed individually for each student

V. INSTRUCTIONAL ACTIVITIES: 
Discussion and written feedback of the Ed.S. study chapters

VI. FIELD, CLINICAL, AND/OR LABORATORY EXPERIENCES: 
Students are required to collect and analyze human subjects data, after having their topic and procedures approved by the IRB (where appropriate)

VII. TEXT(S) AND RESOURCES: 
Students will utilize the MSU library holdings and instructor-provided resources 
APA style manual (current edition)

VIII. EVALUATION AND GRADING PROCEDURES: 
This is a pass/fail course. Successful completion of this course depends upon when the Ed.S. study is completed and defended with the student’s Ed.S. committee. “R” grades will be given for those who fail to complete the course within one semester. The grading policy specified in the Graduate Bulletin will followed for those students obtaining the R grade.

IX. ATTENDANCE POLICY: 

Murray State University
Students are expected to adhere to the MSU Attendance Policy outlined in the current *MSU Bulletin*.

X. ACADEMIC HONESTY POLICY:
Murray State University takes seriously its moral and educational obligation to maintain high standards of academic honesty and ethical behavior. Instructors are expected to evaluate students’ academic achievements accurately, as well as ascertain that work submitted by students is authentic and the result of their own efforts, and consistent with established academic standards. Students are obligated to respect and abide by the basic standards of personal and professional integrity.

Violations of Academic Honesty include:
- **Cheating** - Intentionally using or attempting to use unauthorized information such as books, notes, study aids, or other electronic, online, or digital devices in any academic exercise; as well as unauthorized communication of information by any means to or from others during any academic exercise.
- **Fabrication and Falsification** - Intentional alteration or invention of any information or citation in an academic exercise. Falsification involves changing information whereas fabrication involves inventing or counterfeiting information.
- **Multiple Submission** - The submission of substantial portions of the same academic work, including oral reports, for credit more than once without authorization from the instructor.
- **Plagiarism** - Intentionally or knowingly representing the words, ideas, creative work, or data of someone else as one’s own in any academic exercise, without due and proper acknowledgement.

Instructors should outline their expectations that may go beyond the scope of this policy at the beginning of each course and identify such expectations and restrictions in the course syllabus. When an instructor receives evidence, either directly or indirectly, of academic dishonesty, he or she should investigate the instance. The faculty member should then take appropriate disciplinary action.

Disciplinary action may include, but is not limited to the following:
1) Requiring the student(s) to repeat the exercise or do additional related exercise(s).
2) Lowering the grade or failing the student(s) on the particular exercise(s) involved.
3) Lowering the grade or failing the student(s) in the course.

If the disciplinary action results in the awarding of a grade of E in the course, the student(s) may not drop the course.

Faculty reserve the right to invalidate any exercise or other evaluative measures if substantial evidence exists that the integrity of the exercise has been compromised. Faculty also reserve the right to document in the course syllabi further academic honesty policy elements related to the individual disciplines.

A student may appeal the decision of the faculty member with the department chair in writing within five working days. Note: If, at any point in this process, the student alleges
that actions have taken place that may be in violation of the Murray State University Non-
Discrimination Statement, this process must be suspended and the matter be directed to the
Office of Institutional Diversity, Equity and Access. Any appeal will be forwarded to the
appropriate university committee as determined by the Provost.

XI. NON-DISCRIMINATION POLICY AND STUDENTS WITH DISABILITIES:
Policy Statement
Murray State University endorses the intent of all federal and state laws created to prohibit
discrimination. Murray State University does not discriminate on the basis of race, color,
national origin, gender, sexual orientation, religion, age, veteran status, or disability in
employment, admissions, or the provision of services and provides, upon request,
reasonable accommodation including auxiliary aids and services necessary to afford
individuals with disabilities equal access to participate in all programs and activities. For
more information, contact the Executive Director of Institutional Diversity, Equity and
Access, 103 Wells Hall, (270) 809-3155 (voice), (270) 809-3361 (TDD).

Students with Disabilities
Students requiring special assistance due to a disability should visit the Office of Student
Disability Services immediately for assistance with accommodations. For more
information, students should contact the Office of Student Disability Services, 423 Wells
Hall, Murray, KY 42071. 270-809-2018 (voice) 270-809-5889(TDD).

XII. OTHER REQUIRED DEPARTMENTAL OR COLLEGIATE COMMITTEE
INFORMATION:
Students enrolled in this course should understand that the specialty study is writing
intensive and takes a considerable amount of time and effort—only rarely is completed in
one semester. The reasons for this is that the study is empirical (requires collection of
human subjects data from people or archives), requires statistical analyses, requires several
rounds of editing from the faculty member, and requires substantial formatting. Typically,
the instructor meets face to face with the student to outline the study, followed by
electronic communication for edits and feedback. Ideally, turn-around time is less than one
week, although this varies depending upon the semester. Lastly, it is important to
understand that the study must be defended, finalized, and signed by all committee
members and other administrators on campus at least three weeks before expected
graduation.
