The EPSB Themes of Diversity, Closing the Achievement Gap, and Technology are addressed through required practicum activities such as incorporating adaptations for diverse learners into lesson plans, use a variety of assessment procedures, and select intervention curricula and methods for young children.

Kentucky Early Childhood Standards are resources for IECE teacher candidates.

**Required practicum activities:** A reflection should accompany each required activity.

A. Practicum students will be observed by the university instructor in all placements. An IECE TPA lesson plan will be submitted to the university instructor PRIOR to each observation.

B. Students will plan and teach 2 IECE TPA lesson plans before planning and teaching a 2week standards based unit in preschool. The purpose of these lessons is to allow the student to get to know the preschool children and their developmental levels.

C. Students will plan and teach a two week standards based unit for preschool. Students will have primary responsibility for teaching the planned unit. Students will submit the standards based unit and IECE TPA lesson plans from the unit in LiveText.

D. There should be daily lesson plans for each day you teach the unit. Students are required to use informal assessment linked to objectives on lesson plans during practicum experience. Lesson plan format (IECE KTIP format) and standards based unit are found in LiveText. Students must use technology for instruction in an appropriate way for young children during at least one of the observed lessons.

E. Students are required to develop and carry out 8 IECE TPA lesson plans with infants and/or toddlers in a group setting. Students are required to use informal assessment linked to objectives on lesson plans during practicum experience.

The cooperating teacher should be asked to sign off on log hours to verify accuracy at the end of student practicum experience.

K. Students are required to submit their IECE Working Portfolio with accompanying required entries. Students must place each artifact developed during the practicum behind what students believe to be the appropriate standard (best fit for the activity). The portfolio should also contain a current resume and philosophy and beliefs about the education of young children. X. ACADEMIC HONESTY POLICY:
Murray State University takes seriously its moral and educational obligation to maintain high standards of academic honesty and ethical behavior. Instructors are expected to evaluate students’ academic achievements accurately, as well as ascertain that work submitted by students is authentic and the result of their own efforts, and consistent with established academic standards. Students are obligated to respect and abide by the basic standards of personal and professional integrity.

Violations of Academic Honesty include:
- **Cheating** - Intentionally using or attempting to use unauthorized information such as books, notes, study aids, or other electronic, online, or digital devices in any academic exercise; as well as unauthorized communication of information by any means to or from others during any academic exercise.
- **Fabrication and Falsification** - Intentional alteration or invention of any information or citation in an academic exercise. Falsification involves changing information whereas fabrication involves inventing or counterfeiting information.
- **Multiple Submission** - The submission of substantial portions of the same academic work, including oral reports, for credit more than once without authorization from the instructor.
- **Plagiarism** - Intentionally or knowingly representing the words, ideas, creative work, or data of someone else as one’s own in any academic exercise, without due and proper acknowledgement.

Instructors should outline their expectations that may go beyond the scope of this policy at the beginning of each course and identify such expectations and restrictions in the course syllabus. When an instructor receives evidence, either directly or indirectly, of academic dishonesty, he or she should investigate the instance. The faculty member should then take appropriate disciplinary action.

Disciplinary action may include, but is not limited to the following:
1) Requiring the student(s) to repeat the exercise or do additional related exercise(s).
2) Lowering the grade or failing the student(s) on the particular exercise(s) involved.
3) Lowering the grade or failing the student(s) in the course.

*If the disciplinary action results in the awarding of a grade of E in the course, the student(s) may not drop the course.*

Faculty reserve the right to invalidate any exercise or other evaluative measures if substantial evidence exists that the integrity of the exercise has been compromised. Faculty also reserve the right to document in the course syllabi further academic honesty policy elements related to the individual disciplines.

A student may appeal the decision of the faculty member with the department chair in writing within five working days. Note: If, at any point in this process, the student alleges that actions have taken place that may be in violation of the Murray State University Non-Discrimination Statement, this process must be suspended and the matter be directed to the Office of Equal Opportunity. Any appeal will be forwarded to the appropriate university committee as determined by the Provost.
