IECE Continuous Assessment Committee

Present: Dr. Joann Niffenegger, Dr. Jo Robertson

Reviewed early childhood advisory committee minutes, continuous assessment plan from previous year, and survey data from IECE KTIP internship Spring 2002. Faculty collaborated and made changes on the draft of 2001-2002 continuous assessment data. Several issues were discussed including lack of full time faculty, student concerns about classroom management and time management, and new proposed courses to meet student needs (music for early childhood, Collaboration and Families, Infant/Toddler class). Proposed courses will be submitted to CPE during 2003.

Paucity of data on IECE students made this a challenge. Additional data needs to be collected on IECE students.
